

# Printed Fabrics in Bamboo Hoops

By Kirsten Jones

# Printed Fabric in Hoops

By Kirsten Jones

## Project Instructions

1. Cut pattern fabric about 2" larger than wood hoops.
2. Place fabric on wax paper, using medium brush, apply DOTZ® STICK Adhesive to areas you want to add Diamond Dotz. Let adhesive dry following basic instructions on the bottle.
3. Add Dotz in coordinating colors as shown in photo. Be creative and accent printed fabric designs.
4. TIP - Any areas on the fabric that is still tacky from the adhesive, apply a very thin coat of Mod Podge to remove the adhesion. Let dry.
5. Insert fabric between wood hoops and trim extra fabric in back with scissors.

## Supplies

### DIAMOND DOTZ®

- |                       |                     |
